

Hackerman-Patz House

Guest Lodging ...with care and compassion

The Hackerman-Patz House provides a warm, compassionate home-like setting for patients and families coming from outside our service area, where daily travel to and from home is a hardship.

Thanks to the generosity of Willard and Lillian Hackerman, the house is a natural extension of our founding caregivers' mission to provide loving services and compassionate care. Built to keep family members close together in times of illness, the Hackerman-Patz House offers an affordable, comfortable alternative to a hotel or long distance travel for patients and their caregivers, and has rates that are substantially lower than hotel fees

Rate \$65

(per night, maximum 3 per room)
